SUMMARY

UX/UI designer with hands-on experience shipping mobile and web interfaces for fintech and marketing platforms. I create clean, intuitive, user-centered work that balances usability with business goals — from research and wireframes through high-fidelity UI and developer handoff.

EXPERIENCE

UX/UI Designer

Intexm Media | Full-time | 2024 - Present

- Own the design process for user flows, wireframes, and high-fidelity UI across mobile and web products in fintech and marketing.
- Design responsive websites, landing pages, and internal admin panels, working with developers and stakeholders to keep implementation accurate and consistent across devices.
- Create conversion-focused offer and campaign pages aligned with UGC and platform guidelines, with a clear focus on clarity, compliance, and engagement.

Independent UX/UI Designer

Freelance | Contract | Ongoing

- Designed UX and UI for one mobile application and designed and developed two responsive websites using modern web builders and AI-assisted tools.
- Partnered with clients on end-to-end UI/UX — user journeys, flows, high-fidelity interfaces, and timely implementation.

PROJECTS

Mobile application design — 3 apps

UX and UI for fintech and reward-based mobile apps: user journeys, flows, high-fidelity interfaces, and design-to-development handoff.

Marketing & fintech websites — 7+

Responsive sites, landing pages, and conversion-focused experiences across fintech, rewards, and gaming, using modern web builders and AI-assisted tools.

User journeys & campaign pages

Multiple offer and campaign pages aligned with UGC and platform guidelines, designed for clarity, compliance, and conversion.
